

To authenticate the Rosetta Stone app:

- Install the Rosetta Stone app from the iOS App Store on Google Play on your mobile device.
- On your device's mobile browser, go to pgcmls.info and click on Learn a Language

- Click on Rosetta Stone Library Solution.

- On the next page, click on Rosetta Stone Library Solution again.
- Enter your email address (username) and password on the Rosetta Stone/EBSCO landing page. If you are a first time user, create an account on this screen.
- After authenticating beyond the landing page, click on Launch Rosetta Stone. If the app has already been installed, it is launched on your device. If the app has not yet been installed, you are directed to download Rosetta Stone from the app store for your device.

It might be helpful to close the app and re-open it when trying this.
